## PROFILE

I am an enthusiastic B.Sc. Data Science student at Techno India University, skilled in Python, Excel, and Power BI. With hands-on experience through internships, I harness analytical thinking to tackle real-world data challenges. My commitment to ongoing skill enhancement and strong communication abilities complements my technical expertise, making me a well-rounded candidate in the field of data science.

## EXPERIENCE

### Data Science Intern

Pinnacles Lab

04/2025 - 05/2025 Virtual

A data science-focused company involving projects in data analytics

- Contributed to a data science project involving data cleaning, exploratory analysis, and insights generation using Python

### Data Science Intern

LearnTricks

05/2025 - 06/2025 Virtual

An organization providing learning resources in tech fields

- Currently working on a live internship project focused on data visualization and dashboard creation

### Virtual Data Analytics Intern

Deloitte

05/2025 - 01/1970 Virtual

A leading global consulting firm offering professional services

- Participating in a virtual internship simulating real-world business data analytics problems using industry-standard tools

## EDUCATION

### Bachelor of Science in Data Science

Techno India University

08/2023 - 05/2027 Salt Lake

### Class 12

St. Stephen's School

05/2023 - 05/2023 Dum Dum

### Class 10

St. Stephen's School

05/2021 - 05/2021 Dum Dum

## STRENGTHS

### Analytical and Teamwork Skills

Strong analytical skills and ability to work collaboratively in teams

### Critical Thinking & Problem Solving

Capable of solving complex problems with an innovative approach

### Communication Skills

Effective communicator with the ability to convey insights clearly

## KEY ACHIEVEMENTS

### Data Science Project at Pinnacles Lab

Successfully contributed to a data science project at Pinnacles Lab where I showcased my data cleaning and analytics skills

### Data Analytics Project at Deloitte

Successfully contributed to a data analytics project at Deloitte where I completed practical tasks in: Data Analysis, Forensic Technology

### Data Science Project at LearnTricks

Successfully contributed to a data science project at LearnTricks, where I completed my task in creating an interactive data visualization dashboard using tools like Tableau, Power BI, and Python libraries like Plotly and Dash.

## SKILLS

Microsoft Office

Microsoft Power BI

Microsoft Power Point

Python

SQL

Tableau

Video Editing

Gmail

## CERTIFICATION

### Python & Machine Learning

Certification in Python and Machine Learning from Devtown, Google Developer Students Club

### Statistics & Mathematics for Data Science

Completion of a course on Statistics and Mathematics tailored for Data Science from Udemy

### Data Science Internship Completion

Completion certificate for data science internship at Pinnacles Lab

### Virtual Data Analytics Internship Completion

Completion certificate for data analytics job simulation at Deloitte

## LANGUAGES

English  
Proficient

Bengali  
Native

Hindi  
Proficient

French  
Beginner

Malayalam  
Beginner

## INTERESTS

### Reading Fiction & Writing Poetry

Enjoy reading fiction and writing poetry as a way to express creativity

### Content Creation for YouTube

Creating content on YouTube to share knowledge and insights on various topics

### Independent Research

Engaged in independent research to deepen understanding of data science and related fields
